

# **Northwest Regional Planning Commission**

## **Municipal Plan Review Tool – Municipality of Bakersfield**

This form addresses the statutory requirements of the State of Vermont for town plans, as cited in the Vermont Municipal and Regional Planning and Development Act, Title 24 V.S.A Chapter 117 (the Act). It includes the 12 required elements found in § 4382 of the Act; the four planning process goals found in § 4302(b), the 14 specific goals found in § 4302(c); and the standard of review found in § 4302(f), which covers consistency with goals and compatibility standards.

During the Regional approval and confirmation process, specified in § 4350 of the Act, the regional planning commission is required to assess town plans and the process whereby they are developed according to the criteria of the Act. Sections of relevant statute are quoted at each question.

## TOWN PLAN REQUIRED ELEMENTS

Title 24 Chapter 117: Municipal and Regional Planning and Development

### **24 V.S.A. § 4382. The plan for a municipality**

(a) A plan for a municipality may be consistent with the goals established in section 4302 of this title and compatible with approved plans of other municipalities in the region and with the regional plan and shall include the following:

- (1) A statement of objectives, policies and programs of the municipality to guide the future growth and development of land, public services and facilities, and to protect the environment.**

**Met**

Pages: 3, 99, 106-114

Comments: Vision statement, goals and policies at the end of each chapter and action steps.  
Change 2014 to 2018 on page 99.

- (2) A land use plan, consisting of a map and statement of present and prospective land uses, indicating those areas proposed for forests, recreation, agriculture (using the agricultural lands identification process established in 6 V.S.A. § 8), residence, commerce, industry, public and semi-public uses and open spaces reserved for flood plain, wetland protection, or other conservation purposes; and setting forth the present and prospective location, amount, intensity and character of such land uses and the appropriate timing or sequence of land development activities in relation to the provision of necessary community facilities and service;**

**Met**

Pages: 81-85

MAPS

Present Land Use Plan ✓  
Prospective Land Use Plan ✓

Comments:

- (3) A transportation plan, consisting of a map and statement of present and prospective transportation and circulation facilities showing existing and proposed highways and streets by type and character of improvement, and where pertinent, parking facilities, transit routes, terminals, bicycle paths and trails, scenic roads, airports, railroads and port facilities, and other similar facilities or uses, with indications of priority of need;**

**Met**

Pages: 32-38

MAP

Transportation ✓

Comments:

- (4) A utility and facility plan, consisting of a map and statement of present and prospective community facilities and public utilities showing existing and proposed**

**Met**

Pages: 24-31

MAP

Utility and Facility ✓

educational, recreational and other public sites, buildings and facilities, including hospitals, libraries, power generating plants and transmission lines, water supply, sewage disposal, refuse disposal, storm drainage and other similar facilities and activities, and recommendations to meet future needs for community facilities and services, with indications of priority of need, costs and method of financing;

Comments:

Policies misspelled in first paragraph.

Required is misspelled under Brigham academy on page 27.

**(5) A statement of policies on the preservation of rare and irreplaceable natural areas, scenic and historic features and resources;**

Comments:

Remove word should from third policy on page 75.

To implement the goals and policies related to scenic resources, there is an action step to conduct an inventory.

**Met**

Pages: 23, 74-75, 108, 111-112

**(6) An educational facilities plan consisting of a map and statement of present and projected uses and the local public school system;**

Comments:

**Met**

Pages: 61-63

MAP

Educational Facility ✓

**(7) A recommended program for the implementation of the objectives of the development plan;**

Comments:

It seems that there are an extraordinary number of policies and that some policy statements could be turned into implementation steps – either for the future or the next 5 years.

**Met**

Pages: 100

**(8) A statement indicating how the plan relates to development trends and plans of adjacent municipalities, areas and the region developed under this title;**

Comments:

**Met**

Pages: 101-104

**(9) An energy plan, including an analysis of energy resources, needs, scarcities, costs and problems within the municipality, a statement of policy on the conservation of energy, including programs, such as thermal integrity standards for buildings, to implement that policy, a statement of policy on the**

**Met**

Pages: 39-59

**development of renewable energy resources, a statement of policy on patterns and densities of land use likely to result in conservation of energy;**

Comments: Enhanced energy plan!

(10) A housing element that shall include a recommended program for addressing low and moderate income persons' housing needs as identified by the regional planning commission pursuant to subdivision 4348a(a)(9) of this title. The program should account for permitted accessory dwelling units, as defined in subdivision 4412(1)(E) of this title, which provide affordable housing.

Comments:

**Met**

Pages: 77-81

(11) An economic development element that describes present economic conditions and the location, type, and scale of desired economic development, and identifies policies, projects, and programs necessary to foster economic growth.

Comments:

**Met**

Pages: 87-91

(12)(A) A flood resilience plan that:

(i) identifies flood hazard and fluvial erosion hazard areas, based on river corridor maps provided by the Secretary of Natural Resources pursuant to 10 V.S.A. § 1428(a) or maps recommended by the Secretary, and designates those areas to be protected, including floodplains, river corridors, land adjacent to streams, wetlands, and upland forests, to reduce the risk of flood damage to infrastructure and improved property; and

(ii) recommends policies and strategies to protect the areas identified and designated under subdivision (12)(A)(i) of this subsection and to mitigate risks to public safety, critical infrastructure, historic structures, and municipal investments.

(B) A flood resilience plan may reference an existing local hazard mitigation plan approved under 44 C.F.R. § 201.6.

Comments:

**Met**

Pages: 92-99

## GOALS AND STANDARDS OF REVIEW

### GOALS

#### **24 VSA § 4302**

(a) General purposes . . .

(b) It is also the intent of the legislature that municipalities, regional planning commissions and state agencies shall engage in a continuing planning process that will further the following goals:

- (1) To establish a coordinated, comprehensive planning process and policy framework to guide decisions by municipalities, regional planning commissions, and state agencies.
- (2) To encourage citizen participation at all levels of the planning process, and to assure that decisions shall be made at the most local level possible commensurate with their impact.
- (3) To consider the use of resources and the consequences of growth and development for the region and the state, as well as the community in which it takes place.
- (4) To encourage and assist municipalities to work creatively together to develop and implement plans.

(c) In addition, this chapter shall be used to further the following specific goals:

#### **Goal 1:**

**To plan development so as to maintain the historic settlement pattern of compact village and urban centers separated by rural countryside.**

**Consistent**  
Pages: 82-86

- (A) **Intensive residential development should be encouraged primarily in areas related to community centers, and strip development along highways should be discouraged.**
- (B) **Economic growth should be encouraged in locally designated growth areas, or employed to revitalize existing village and urban centers, or both.**
- (C) **Public investments, including construction or expansion of infrastructure, should reinforce the general character and planned growth patterns of the area.**

How has the Town Plan addressed this goal: The town has designated a Village Center District for the historic village center and a High Density Residential District surrounding the community core. Policies promote higher density residential and more intensive commercial development in these districts. Conversely, appropriately scaled resource based enterprises and home based businesses are encouraged in the rural districts.

If the goal is not relevant or attainable, how does the plan address why:

**Goal 2:**

**To provide a strong and diverse economy that provides satisfying and rewarding job opportunities and that maintains high environmental standards, and to expand economic opportunities in areas with high unemployment or low per capita incomes.**

**Consistent**

Pages: 87-91

How has the Town Plan addressed this goal: The plan has an economic development chapter that promotes appropriately scaled and sited commercial opportunities and strategies for encouraging further development of resource based and home enterprises.

If the goal is not relevant or attainable, how does the plan address why :

**Goal 3:**

**To broaden access to educational and vocational training opportunities sufficient to ensure the full realization of the abilities of all Vermonters.**

**Consistent**

Pages: 60-63

How has the Town Plan addressed this goal: The education chapter considers opportunities for quality education and vocational training opportunities for children and mentions higher education facilities located regionally. The chapter should mention opportunities for adult learning, such as the Vermont Adult Learning Center in St. Albans. The goal related to education should be broadened by adding adult learning as an objective.

If the goal is not relevant or attainable, how does the plan address why:

**Goal 4:**

**To provide for safe, convenient, economic and energy efficient transportation systems that respect the integrity of the natural environment, including public transit options and paths for pedestrians and bicyclers.**

**Consistent**

Pages: 32-38

- (A) **Highways, air, rail and other means of transportation should be mutually supportive, balanced and integrated.**

How has the Town Plan addressed this goal: The Transportation Chapter provides a plan for the town's transportation system consistent with this goal. There is an intention, supported by goals and policies in the plan, to make the village center safe for pedestrians and bicyclers.

If the goal is not relevant or attainable, how does the plan address why:

**Goal 5:**

**To identify, protect and preserve important natural and historic features of the Vermont landscape including:**

**Consistent**

Pages: 13-23, 64-76

- (A) significant natural and fragile areas;**
- (B) outstanding water resources, including lakes, rivers, aquifers, shorelands and wetlands;**
- (C) significant scenic roads, waterways and views;**
- (D) important historic structures, sites, or districts, archaeological sites and archaeologically sensitive areas**

How has the Town Plan addressed this goal: The Natural Resources and Historic and Archeological Resources Chapters provide a plan for furthering this goal. There is a Conversation District, Flood Hazard and River Corridor Overlay District and many policies for considering how to prevent and/or mitigate impacts to these resources by development and other land use.

If the goal is not relevant or attainable, how does the plan address why:

**Goal 6:**

**To maintain and improve the quality of air, water, wildlife and land resources.**

**Consistent**

Pages: 64-76

How has the Town Plan addressed this goal: The plan recommends zoning districts that protect sensitive resources and identifies policies and action statements that require development regulations to be sensitive to natural resources.

If the goal is not relevant or attainable, how does the plan address why:

**Goal 7:**

**To encourage the efficient use of energy and the development of renewable energy resources.**

**Consistent**

Pages: 39-59

How has the Town Plan addressed this goal: The town has identified a plan for promoting energy efficiency and encouraging renewable energy, including but not limited to building energy standards, encouraging improvements that conform to complete streets standards and promoting carpooling.

If the goal is not relevant or attainable, how does the plan address why:

**Goal 8:**

**To maintain and enhance recreational opportunities for Vermont residents and visitors.**

**Consistent**

Pages: 28, 24-25, 74-75, 86

- (A) Growth should not significantly diminish the value and availability of outdoor recreational activities.**

- (B) Public access to noncommercial outdoor recreational opportunities, such as lakes and hiking trails, should be identified, provided, and protected wherever appropriate.**

How has the Town Plan addressed this goal: The plan recognizes that growth can impact recreational resources and promotes the clustering of development to discourage this. The plan identifies pursuing a town forest as a policy. The plan could consider how to preserve or promote public access to non-commercial outdoor recreational opportunities.

If the goal is not relevant or attainable, how does the plan address why:

**Goal 9:**

**To encourage and strengthen agricultural and forest industries.**

- (A) Strategies to protect long-term viability of agricultural and forest lands should be encouraged and should include maintaining low overall density.**
- (B) The manufacture and marketing of value added agricultural and forest products should be encouraged.**
- (C) The use of locally-grown food products should be encouraged.**
- (D) Sound forest and agricultural management practices should be encouraged.**
- (E) Public investment should be planned so as to minimize development pressure on agricultural and forest land.**

**Consistent**

Pages: 65-68, 82-86

How has the Town Plan addressed this goal: Encouraging and strengthening agricultural and forest industries is a primary goal for the Town of Bakersfield.

If the goal is not relevant or attainable, how does the plan address why:

**Goal 10:**

**To provide for the wise and efficient use of Vermont's natural resources and to facilitate the appropriate extraction of earth resources and the proper restoration and preservation of the aesthetic qualities of the area.**

**Consistent**

Pages: 69, 75-76

How has the Town Plan addressed this goal:

If the goal is not relevant or attainable, how does the plan address why:

**Goal 11:**

**To ensure the availability of safe and affordable housing for all Vermonters.**

**Consistent**

Pages: 77-81

- (A) Housing should be encouraged to meet the needs of a diversity of social and income groups in each Vermont community, particularly for those citizens of low and moderate income.
- (B) New and rehabilitated housing should be safe, sanitary, located conveniently to employment and commercial centers, and coordinated with the provision of necessary public facilities and utilities.
- (C) Sites for multi-family and manufactured housing should readily available in locations similar to those generally used for single-family conventional dwellings.
- (D) Accessory apartments within or attached to single family residences which provide affordable housing in close proximity to cost-effective care and supervision for relatives or disabled or elderly persons should be allowed.

How has the Town Plan addressed this goal: The plan includes a policy framework that promotes safe, accessible housing for all Vermonters.

If the goal is not relevant or attainable, how does the plan address why:

**Goal 12:**

To plan for, finance and provide an efficient system of public facilities and services to meet future needs.

**Consistent**

Pages: 24-31

- (A) Public facilities and services should include fire and police protection, emergency medical services, schools, water supply and sewage and solid waste disposal.
- (B) The rate of growth should not exceed the ability of the community and the area to provide facilities and services.

How has the Town Plan addressed this goal: The plan includes an inventory, assesses the adequacy and considers the need and cost of improvement of community facilities and services.

If the goal is not relevant or attainable, how does the plan address why:

**Goal 13:**

To ensure the availability of safe and affordable child care and to integrate child care issues into the planning process, including child care financing, infrastructure, business assistance for child care providers, and child care work force development.

**Consistent**

Pages: 60

How has the Town Plan addressed this goal: The plan includes a basic assessment of childcare. Are there updated child care cost figures?

If the goal is not relevant or attainable, how does the plan address why:

**Goal 14:**

To encourage flood resilient communities.

- (A) New development in identified flood hazard, fluvial erosion, and river corridor protection areas should be avoided. If new development is to be built in such areas, it should not exacerbate flooding and fluvial erosion.
- (B) The protection and restoration of floodplains and upland forested areas that attenuate and moderate flooding and fluvial erosion should be encouraged.
- (C) Flood emergency preparedness and response planning should be encouraged.

**Consistent**

Pages: 92-99

How has the Town Plan addressed this goal: The plan includes a comprehensive all hazards plan, including NFHA and River Corridor policies and implementation.

If the goal is not relevant or attainable, how does the plan address why:

---

---

## **STANDARD OF REVIEW**

### **24 V.S.A. § 4302(f)**

- (1) As used in this chapter, "consistent with the goals" requires substantial progress toward attainment of the goals established in this section, unless the planning body determines that a particular goal is not relevant or attainable. If such a determination is made, the planning body shall identify the goal in the plan and describe the situation, explain why the goal is not relevant or attainable, and indicate what measures should be taken to mitigate any adverse effects of not making substantial progress toward that goal. The determination of relevance or attainability shall be subject to review as part of a consistency determination under this chapter.
- (2) As used in this chapter, for one plan to be "compatible with" another, the plan in question, as implemented, will not significantly reduce the desired effect of the implementation of the other plan. If a plan, as implemented, will significantly reduce the desired effect of the other plan, the plan may be considered compatible if it includes the following:
- (A) a statement that identifies the ways that it will significantly reduce the desired effect of the other plan;
  - (B) an explanation of why any incompatible portion of the plan in question is essential to the desired effect of the plan as a whole;
  - (C) an explanation of why, with respect to any incompatible portion of the plan in question, there is no reasonable alternative way to achieve the desired effect of the plan, and
  - (D) an explanation of how any incompatible portion of the plan in question has been structured to mitigate its detrimental effects on the implementation of the other plan.

### **24 V.S.A. § 4350. Review and consultation regarding municipal planning effort**

- (a) A regional planning commission shall consult with its municipalities with respect to the municipalities' planning efforts, ascertaining the municipalities' needs as individual municipalities and as neighbors in a region, and identifying the assistance that ought to be provided by the regional planning commission. As a part of this consultation, the regional planning commission, after public notice, shall review the planning process of its member municipalities at least twice during an eight-year period, or more frequently on request of the municipality, and shall so confirm when a municipality:

(1) is engaged in a continuing planning process that, within a reasonable time, will result in a plan which is consistent with the goals contained in section 4302 of this title; and

(2) is maintaining its efforts to provide local funds for municipal and regional planning purposes.

(b)(1) As part of the consultation process, the commission shall consider whether a municipality has adopted a plan. In order to obtain or retain confirmation of the planning process after January 1, 1996, a municipality must have an approved plan. A regional planning commission shall review and approve plans of its member municipalities, when approval is requested and warranted. Each review shall include a public hearing which is noticed at least 15 days in advance by posting in the office of the municipal clerk and at least one public place within the municipality and by publication in a newspaper or newspapers of general publication in the region affected. The commission shall approve a plan if it finds that the plan:

(A) is consistent with the goals established in section 4302 of this title;

(B) is compatible with its regional plan;

(C) is compatible with approved plans of other municipalities in the region; and

(D) contains all the elements included in subdivisions 4382(a)(1)-(10) of this title.

---

The following are procedures for Regional Planning Commission review of town plans. The first procedure pertains to review of town plan re-adoptions and town plan amendments. The second is a procedure for review of town plan amendments.

#### **Town Plan Review & Approval Process**

1. The regional planning commission (RPC) receives a request for town plan approval.
2. If the staff review reveals a flaw that would preclude RPC approval, the town will be notified. It is the town's option as to whether they want a final decision on the plan or if the plan should be withdrawn from the approval process.
3. Staff comments, including draft findings and recommendations, will be provided to the Municipal Plan Review committee .
4. The RPC's public hearing will be held before the RPC makes its final decision on the plan.
5. In all cases the RPC will take final action on the plan approval request within 60 days of its receipt.

#### **Town Plan Amendment Review Process**

1. The regional planning commission (RPC) receives a request to review an amendment to the town plan.

2. Staff comments, including draft findings and recommendations, will be provided to the Municipal Plan Review Committee.
3. The town will be notified whether or not the amendment may be approved within the context of the current regional approval of the town plan, or if the amendment constitutes a material change to the plan that is beyond the scope of the current regional approval.
4. If the amendment constitutes a change to the plan that is beyond the scope of the current regional approval, the town will be given the option of submitting the amended plan for regional approval.

DRAFT

### **Municipal Plan Review Committee**

The Chair of NRPC will appoint a five member Municipal Plan Review Committee following the annual meeting each year. The Municipal Plan Review Committee will be responsible for reviewing all plans submitted for approval during that year. Upon receipt of a plan or amendment submitted by a municipal legislative body for approval, the Executive Director or his/her designee will notify the Committee members. Board members representing the municipality whose plan or amendment is under review must temporarily recuse themselves as a member of the Committee. They may, however, act on behalf of the municipality during the review process, and provide testimony at the public hearing.

The Committee, at its first meeting in each fiscal year, will elect a Chair to run meetings, the public hearing(s), and to present the Panel's recommendations to the Board and a Vice-Chair to assume the duties of the Chair as needed.

It is the responsibility of the Committee to consider staff recommendations and any comments from the municipality, neighboring municipalities, and other interested parties; to conduct required public hearings after proper notice; and to make recommendations to the Board of Commissioners in the form of written findings and conclusions.

A quorum of Committee members shall not be required to conduct a meeting or conduct a public hearing. Committee members shall attend the required hearing or review the record of the hearing. The Review Panel will prepare written findings and recommendations. The panel's findings and recommendations will be presented to the Board of Commissioners for action.

### **Staff Responsibilities**

After submission of a request for regional approval by the local legislative body, one or more staff members, appointed by the Executive Director, will conduct a review of a proposed plan or plan amendment. Staff will review the plan using the attached checklists. Under direction of the Committee, staff will complete all required public notifications, prepare written findings and otherwise assist the Committee.
